Ticks

(Ixodes pacificus)

Ticks actual size

Ticks are found in the area and may carry Lyme disease.

→ To be safe:
→ Stay on the trail.
→ Check clothing and body frequently for ticks.
Tuck pants into boots or socks, and shirts into pants.

If you do find a tick attached to your skin:
→ Carefully remove the tick as soon as you can
→ Save the tick for later identification.
→ Seek medical attention.

In California the distribution of *Ixodes pacificus* (Western Black Legged Tick) appears to be limit d to the moister regions of the coastal and Sierra foothill ranges all along the state.

POISON
OAK

Poison Oak
The shiny leaves of this shrub grow in groups of three on smooth stems. They are green in the spring and summer, orange-red in the fall, and brown in the winter.
Do not touch the stems or leaves, for much of this plant is toxic to humans and may cause irritation or blisters. Sometimes animals can eat poison oak without ill effect.
Toxicodendron diversilobum, a shrub or vine native to California and a member of the cashew family, is found in the state's woodlands and chaparral.

(Toxicodendron diversilobum)

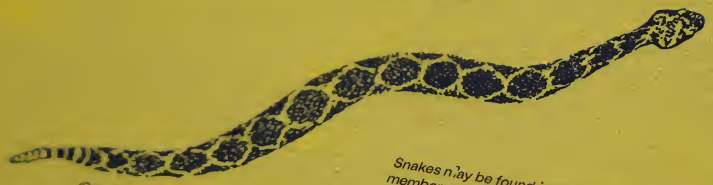

Poison Oak

The shiny leaves of this shrub grow in groups of three on smooth stems. They are green until fall when they turn various shades of red and orange.

Do not touch the stems or leaves, for the oil of this plant is toxic to humans and may cause a severe rash or blisters. Sometimes poison oak will grow as a vine in the trees.

Toxicodendron diversilobum, a dicot is native to California and is confined to western North America.

Keep Yourself and Snakes Safe

(Crotalus oreganus)

Snakes may be found in this area. They are wild members of this farm's natural community. They are not aggressive, but if threatened they will defend themselves. Enjoy them from a respectful distance.

→ Avoid placing your hands or feet in places you can't see

→ Do not disturb or harm any snake

→ If you find a rattlesnake in a building, barn or classroom notify farm staff so they can relocate it

Crotalus oreganus, Northern Pacific Rattlesnake is the most common venomous snake native to California

Poison Hemlock
Poison hemlock, a Class B noxious weed, is a widespread toxic biennial plant in the Carrot Family often found in open sunny areas, fields, vacant lots, and roadsides. Eating even a small amount of any part of this plant can kill people, livestock and wildlife. Never consume what you can't confidently identify!
Conium maculatum, a dicot, is a perennial herb that is not native to California; it was introduced from elsewhere and naturalized in the wild.
(Conium maculatum)

Poison Hemlock
Poison hemlock, a Class B noxious weed, is a wide-spread toxic biennial plant. It has a carrot like taproot and is found in open sunny areas, fields, vacant lots, and other disturbed areas. Eating even a small amount of any part of this plant can kill people, livestock, and wildlife. Never consume what you can't confidently identify!
Conium maculatum, a dicot, is a Eurasian herb that is now native to California. It was introduced from elsewhere and naturalized in the wild.

CODE OF CONDUCT
Consent is...

We expect all interactions at camp to follow these guidelines for consent.

Affirmative
Enthusiastic consent is the presence of a yes, not the absence of a no. All people involved in an activity have clearly expressed their agreement. Not Sure? ASK.

Informed
All parties have the info necessary for making a good decision. If you initiate an interaction, it is your responsibility to get consent. If anything changes, get consent again.

Specific
Consent for one thing does not equal consent for everything. Make sure you understand their boundaries. Get consent again if you think you are near or passing those boundaries. If the boundaries are unclear, ask.

Competent
Everyone involved has the knowledge and judgement required for consent. Impaired people (drugs, alcohol, etc.) cannot consent. Be wary of power dynamics. Make sure people feel safe saying no.

Unpressured
Accept a "no" at face value and end the interaction. Do not pressure anyone or attempt to influence them. Give them time to think about it. MAYBE means NO.

Ongoing
Consent is not a contract. Consent must be present throughout any interaction and can be revoked at any time for any reason (or no reason at all). Check in frequently.

Code of Conduct
At-a-Glance

Respect
→ Treat others with dignity and kindness regardless of gender, orientation, disability, appearance, race, age, religion, etc.
→ Make sure you have enthusiastic, ongoing consent in all interactions
→ Respect the privacy of others, and avoid photographing those with red lanyards
→ Follow Chatham House Rules when mentioned (neither the identity or the affiliation of any participant may be revealed)

Collaboration
→ Be open to new ideas and learn from others
→ Bring up your own ideas in conversations
→ In cases of strong disagreement, try to move on and stay focused on the goal of the discussion
→ Talk to people you haven't met yet

Inclusion
→ Rule of 1: Make 1 point and then let others speak
→ Rule of n: If there are n people in the group, speak 1/nth of the time
→ Be inclusive of people with other backgrounds
→ Avoid jargon or terms that may not be understood by the entire group

Communication
→ Avoid interrupting people
→ Be concise with your points and allow others to participate
→ In a misunderstanding, try to assume the most benign interpretation and then seek clarification
→ Address problematic speech or behavior when it occurs, if possible, even if it wasn't addressed to you

If you experience or witness behavior that is not in line with our Code of Conduct, tell a Conduct Team Member (look for person with rainbow lanyard or ask at info desk) or email a.ethics@ethdenver.org.
